2008 & great

Hashima (respectful greetings),

Abundant peace to you and the family. I am pleased to be writing you to confirm our offer of membership to the Education, Resource and Curriculum (ERaC) Development Forum. This emailed letter gives important information on our objectives and the process by which you may confirm your important place in the Forum.

There are several supporting documents that we have placed online for your ease of access. The full details of how to get to them is stated below.

As an overview let me reaffirm that the ERaC Development Forum has been established (since 2005) to advance public education in cultural arts, sciences and the natural relationship between art, science and mathematics (*yeht'mr urwuk'eht*, unifiedknowledge). We are both a service to the community and a publicly accountable organization, drawing our organizational and individual membership from those interested in natural approaches to learning and community development. Within this broad context and in recognition of your interest we salute *you* as an advocate/practitioner of “unified” ways and we welcome you to the Forum.

Our membership fee is £27 per year. We hope you find it fair, understandable and acceptable. With your confirmation we will send you an invoice / receipt, which will be sent sealed with hashima (*the profoundest respect and gratitude*). Please note that our *membership form* and process allows a way of self-assessment and if you feel the need, you are free to use this “special concession” option to reduce your membership fee. This said, you should rightly ask what this *once-a-year* fee does. Practically it will assist with some basic administration costs. More importantly it marks your official voice “*commissioning*” the Forum into enhanced powers of service and it gives you the best means, if you wish to exercise it, of steering “*our*” organization in the ways that “*members*” can (see our constitution).

At this time we have three main *objective points*; 1) abunDANCE Gatherings - edutainment, social, cultural, networking, entertaining, intelligent, healing and up-full. 2) Basic Resources and Networks (BRaN) - for the securing of strategic advantage of our membership and communities in alignment with our constitution. 3) abundance Consortium - the establishment and maintenance of “abundance – The Community Life Centre”.

To get further information visit: <http://archive.unifiedknowledge.org>

- search for “*constitution*” : for a statement of our organisational constitution (*guidelines on how we work*).
- search for “*membership*” : for the MEMBERSHIP FORM.
- search for “*alama*” : for the tool we'll be using to achieve our objectives.
- search for “*tajaba*” : for a key *unifiedknowledge* learning resource (as an example of the way's values)
- search for “*community life*” : for an outline of “abundance – The Community Life Centre”

Download, print and complete your MEMBERSHIP FORM. Then send this along with your membership fee to the address stated below. Thank you for counting your Self in and welcome to our Forum... lets get to work.

Peace.

Astehmari Batekun

Chairman - ERaC Development Forum
